Scope and Content

In my thesis I intend to prove that the single bullet theory is totally without foundation and contrary to known facts and reason. Moreover, the [Warren] Commission knew it at the time and deliberately withheld evidence which would have negated their conclusions. -Theresa Seay, Thesis Proposal

The Theresa Seay Papers combine over thirty years of research in the assassination of John F. Kennedy. The result of which included a master's thesis, a PhD dissertation, a newsletter run, and speaking engagements. Her research is rooted in the volumes of the Warren Commission, the House Select Committee on Assassinations, and numerous documents released by the FBI, CIA and other federal agencies since 1963. Seay amassed a large collection of books related to the Kennedy Assassination, a selection of which are included in the collection. Major topics include Kennedy assassination literature, conspiracies and cover-ups, the CIA and the FBI.

Materials are arranged topically: Conferences, Correspondence, Dissertation, Publications, Research, and Media.

Administrative/Biographical History

Theresa Margaret Carroll Seay was born in New York City on August 28, 1943, the only child of Charles Edward Carroll and Stephania Klapik Carroll. Charles died when Theresa was six years old, and she was raised by her mother. She was educated through high school in Catholic schools graduating from Notre Dame High School near the top of her class.

Theresa attended Washington State College in Machias, Maine, until the end of her sophomore year when she transferred to the University of Maine at Orono. She graduated with a bachelor's degree in history and education in 1965, and then attended graduate school for one semester.

She met and married Kenneth Edward Garnett in 1968 and settled near Ellsworth, Maine. They lived there for about 10 years. Their only child, David Edward, was born in 1973. During this time, she joined Mensa. Theresa worked for 10 years as a veterinary assistant in Ellsworth. She also bred German Shepherd dogs, Arabian horses, and operated a riding stable. She was active in local politics, although she never ran for office. At some point Theresa became interested in JFK assassination research. After studying the available information, she became an advocate for alternate explanations. She also, with her Mensa network, took part in demonstrations about injustices she encountered.

After a divorce, she and son David moved to Raleigh, North Carolina. In the Raleigh Mensa group, she met and subsequently married Robert Seay, an engineer at a local manufacturer of electronic components. She became a prominent member in this local Mensa group.

In 1988 Theresa and Robert moved to Asheville, North Carolina, where she set up a consulting business. During the three years in Asheville, she wrote several articles and stories, some of which were published in various specialty magazines. She attended several conferences of JFK researchers and chaired one in Dallas on the 30th anniversary in 1993.

After moving to Connecticut, Theresa entered the graduate program at Western Connecticut University in Danbury in 1993. She finished the master's program there and was admitted to the University of Connecticut at Storrs for her doctoral studies. She was awarded her Ph.D. in History and Government in 2002. Her dissertation was about the discrepancies in the medical evidence between Parkland Hospital and the Bethesda

autopsy of JFK.

After the 9-11 terrorist attacks, Theresa joined a local group of researchers where she put considerable effort into investigating and communicating with other colleagues. She continued this activity until her death on May 22, 2011.

Archival Arrangement

The papers were previously arranged in 2013 in an order that has been largely maintained with minor rearrangements. Several books are included in two boxes at the end of the collection. A VHS tape, a film reel, and a couple floppy disks are also included.

Series 1: Conferences. 1992-1994, undated

Administrative/Biographical History

Theresa Seay was an expert on the Warren Commission report and attended and was invited to speak at many conferences during her active research years. This material is from conference attended between 1992-1994.
